BUSINESS LANDSCAPE

The Indian real estate sector has significantly contributed to the country & economic growth. According to the Confederation of Real Estate Developers' Association (CREDAI), the real estate market is projected to reach \$1.3 trillion (13.8% of projected GDP) by FY 2034 and \$5.17 trillion (17.5% of projected GDP) by 2047, with an additional 7 crore housing units needed by 2030. Currently valued at ₹24 lakh crore, the market has an 80% residential and 20% commercial split.

India's urbanization rate is set to reach 40% by 2030, driving demand for housing, commercial spaces, and infrastructure. This growth will boost the need for elevators, escalators, mobility solutions, and technology-driven automation, with AI and IoT playing pivotal roles.

CBRE South Asia Pvt. Ltd. reports that 89% of India's tall buildings are residential, 6% are office buildings, 4% are mixed-use structures, and 1% are hotels.

E&E INDUSTRY OVERVIEW

The Global Elevators & Escalators market, valued at USD 79.70 billion in 2021, is projected to reach USD 130.96 billion by 2028, growing at a CAGR of 6.68% according to recent market research reports. The Luxury Home Elevator market is also expected to grow at a CAGR of 8.00% from 2023 to 2030, with the AsiaPacific region experiencing the fastest growth, as per these reports.

Technology is revolutionizing real estate with the integration of Vertical and Horizontal Transportation (VHT) systems, including elevators, escalators, and moving walkways. Digitization, through IoT and cloud computing, allows VHT systems to communicate with building management systems, enhancing efficiency and minimizing downtime through predictive analysis and proactive maintenance.

Enhanced safety and security are significant benefits, with access control systems ensuring only authorized entry to specific areas. Intelligent buildings with 'smart' homes, offices, and leisure spaces are becoming standard, facilitating seamless access and people flow management.

Developers recognize that high-performance buildings are essential for better customer retention, effective maintenance, and lower operational costs. Innovative technology is reshaping the real estate business, paving the way for the & buildings of the future.

CONVENIENCE OF LIVING

SMART LIFT & MOBILITY WORLD 2026

EXPO | AWARDS | SUMMIT | RUN

Awareness of smart lift and mobility solutions is rapidly increasing. According to a report, the global Smart Lift market, valued at \$18.75 billion USD in 2019, is projected to reach \$38.27 billion USD by 2027. India, the second-largest market, is expected to grow at a CAGR of 14.8% during the forecast period, driven by infrastructure growth and supportive government policies. Smart Lift & Mobility World 2026 will continue to provide a dedicated platform for buyers and stakeholders to explore and source the latest products and solutions for building access and people flow management. With India's commitment to inclusivity, as seen in the ratification of the UN's Convention on Rights of Persons with Disabilities and the Rights of Persons with Disabilities Act 2016, along with revisions to lift standards (ISO 8100-part 1 and ISO 8100-part 2), the VHT industry is undergoing significant transformation.

The second edition of SLM World will showcase technological and digital advancements in building access and people flow management, focusing on accessibility, inclusivity, and sustainability. The expo will feature smart technologies, including the latest lifts, escalators, building access systems, home lifts, parking solutions, and various mobility solutions.

SLM World 2026 will be a convergence point for VHT industry OEMs, component manufacturers, access & security solutions, real estate developers, architects, and other stakeholders to interact and set new benchmarks for the industry.

SLM AWARDS

The Smart Lift and Mobility (SLM) Awards 2026 will honor visionaries in the vertical transportation (VHT) and access control industry and key stakeholders such as architects and developers, recognizing their noteworthy projects. These awards celebrate those who spearhead India's vertical growth, setting higher standards and inspiring others through their exemplary leadership.

The SLM Awards will identify and incentivize stakeholders who excel in delivering top-quality services in the design, adaptation, and implementation of technology, as well as the management of elevators and escalators in India. The focus will be on elevating safety, quality, sustainability, accessibility and user experience in building access and vertical mobility.

ELEVATOR SAFETY RUN

UPLIFTING ELEVATOR SAFETY AWARENESS TOGETHER

Join the global initiative uniting all stakeholders in a commitment to safe elevator products and best practices. This event underscores the critical importance of elevator safety. Industry leaders, professionals, and enthusiasts are invited to participate in 3K, 5K, and 10K runs, either to support the cause or compete in various categories. All participants will receive complimentary goodies and have the chance to win exciting cash prizes.

The second edition promises to be even bigger and more impactful, with professional teams managing the entire event and a Zoomba team handling warm-up and cool-down sessions, all supported by trained medical staff and other arrangements. Participants can join in person or virtually via a dedicated app to show their support. The inaugural event drew over 1,500 participants of all ages, including elevator buyers, regulatory authorities, and industry professionals, all united by the common goal of promoting elevator safety.

Industry
Insights

Exclusive
Workshops

Experience a dynamic, three-day interactive event featuring panel discussions, presentations, training sessions, and audience interactions, tailored for all stakeholders. The second edition will once again bring together industry leaders, innovators, and experts from across India to explore the latest advancements, trends, and solutions shaping the future of vertical mobility. This summit is designed to highlight perspectives from both buyer segments (real estate developers and architects) and the people flow management sector, ensuring a comprehensive understanding of the industry's future.

virgo COMMUNICATIONS AND EXHIBITIONS (P) LTD

20 YEARS OF BUSINESS EXCELLENCE

Over the past two decades, Team Virgo has proudly developed numerous successful business platforms tailored to specialized industries, including adhesives and sealants, lifts and escalators, gears and grinding, stainless steel, mobile accessories and gadgets, beer and alcobev in India and emerging markets. In addition, our publication division has provided dedicated print and digital magazines to ensure enduring connections. We have created effective business platforms for global and domestic players to explore new markets, expand operations, and forge alliances. Our visionary approach, innovative strategies, risk-taking ability, and proven expertise have driven growth and established long-lasting connections for our clients and partners. As we celebrate 20 years of business excellence, Team Virgo continues to open doors for many more sectors to engage with potential customers, fostering opportunities for success.
